Profile

I am a junior **front-end developer** with two years of experience in web development studies and freelance projects. With solid knowledge in HTML and CSS, I am continuously improving my skills and expanding my toolkit. Currently, I am deepening my knowledge in JavaScript, React, and databases, while also developing skills in UI and UX design.

Education

Complete High School, Escola Normal Estadual Pe. Emídio Viana Correia

Fevereiro 2020 — Novembro 2022

During high school, I achieved excellent grades in all subjects and actively participated in extracurricular activities. One of my greatest accomplishments was winning a poetry contest, which resulted in my poem being published in a book called "**Flirede 2022**". This experience not only highlighted my literary skills but also demonstrated my dedication and ability to achieve high academic and creative standards.

Courses

Developing Mobile Applications, SENAI - Prof. Stenio Lopes

Novembro 2022 — Março 2023

Web designer, SENAI - Prof. Stenio Lopes

Abril 2022 — Junho 2022

Works

Front-end developer, Le-Monde-Shop

Fevereiro 2023 — Abril 2023

For a while, I worked briefly on a French shopping site called **Le-Monde-Shop**, using React for development. This experience allowed me to improve my skills in JavaScript and front-end development, as well as gain practical knowledge in building dynamic and responsive user interfaces.
